YOUR NEWSPAPER WHEREVER YOU ARE

OCS NEWSPAPER DIRECT PRINT ON DEMAND SERVICE

OCS is pleased to announce the launch of its new service **“Newspaper Direct Print On Demand”**. This service provides our subscribers with in - depth coverage of world events, international business developments, local communities, foreign markets and your competitor’s activities.

OCS will provide the customer with relevant print on demand software to be installed on your desktop computer in order to download & subsequently print the newspaper title of your choice at your print location on the same day of the edition being published. The printer can be installed by the customer at his location of choice either by procuring from **OCS** or directly from printer manufacturers. After installation of the software & printer , we will provide you with a secure user id & password to carry out the print operation. Customers will be billed for the same on a monthly basis by **“Ocs Express Pvt Ltd”**. At present our ever-expanding list of international newspapers (**204 titles from 54 countries in 30 languages**) will provide you the most current news on a global scale that can be the information vital to your business decisions.

Till now, international newspapers through news-stands were expensive and several days out of date. Our new service will change that. Individuals, business houses, financial institutions, high commissions, hotels and tour operators can now receive the most current edition of their favourite newspapers on the same day of their publication. To be a part of our new service and to enquire furthermore on the same, contact our subscription sales department .

Printer Brands & Configurations :-

Xerox DocuPrint N4525

The DocuPrint N4525 series of network laser printers from Xerox (a 5th generation Xerox engine) has been perfected to handle the toughest performance requirements of high-volume networks. Combining the industry-leading speed of 45 ppm with 1200 dpi Image Quality, these printers set the benchmark for high-speed network printing. With extensive input/output flexibility, WorkSet Technology convenience and productivity features, production-level paper handling and numerous finishing capabilities, the N4525 can meet your most challenging print demands. Switch between up to six input sources to handle diverse or very large printing jobs. Choose from an impressive array of paper types, weights and sizes from postcard to ledger. Take advantage of options like collating, stapling and hole punching for documents that are ready for distribution when you retrieve them from the tray.
